1. Introduction

EagleEye is a modern, full-stack logistics management system designed for end-to-end shipment tracking across India. It provides a comprehensive platform for three types of users:

Role	Description
Customer	Book shipments, track parcels, manage orders, view services
Delivery Agent	Manage deliveries, scan packages, update delivery status, capture proof of delivery
Admin	Monitor network performance, manage agents & hubs, handle queries, run promotions

Key Features

- Real-time shipment tracking with AWB numbers
 - Multi-step shipment booking with rate calculator
 - Interactive India map with hub locations and routes
 - Admin dashboard with KPI analytics and charts
 - Phone-based OTP authentication (via SMS gateway)
 - Fully responsive — works on desktop, tablet, and mobile
 - Dark/Light mode support
-

2. System Requirements

Browser Requirements

Browser	Minimum Version
Google Chrome	90+
Mozilla Firefox	88+
Microsoft Edge	90+
Safari	14+

For Development

Requirement	Version
Node.js	18.x or higher
npm	9.x or higher
PostgreSQL	14+ (or Neon Cloud)

3. Installation & Setup

Step 1: Clone the Repository

```
git clone https://github.com/Anshk3671/EagleEye.git
cd EagleEye
```

Step 2: Install Frontend Dependencies

```
npm install
```

Step 3: Start the Frontend Dev Server

```
npm run dev
```

The website will be available at `http://localhost:5173/`

Step 4: Setup Backend (for live API data)

```
cd server
npm install
npx prisma generate
npx prisma db push
npx prisma db seed
npm run dev
```

The API server starts at `http://localhost:3001/`

Step 5: Build for Production

```
npm run build
npm run preview
```

4. Authentication – Login with OTP

EagleEye uses **phone-based OTP (One-Time Password)** authentication. No passwords are required.

How to Login:

- Navigate to the **Login** page by clicking the user avatar icon in the header or visiting `/login`
- Select your role: **Customer**, **Agent**, or **Join Us (Admin)**
- Enter your **phone number** (format: +91 XXXXXXXXXX)
- Click "**Sign In**" — an OTP will be sent to your phone via SMS
- Enter the **6-digit OTP** to complete authentication
- You will be redirected to your role-specific dashboard

Login Page — Phone + OTP Authentication

Note: If SMS is not configured, check the server console for the OTP code.

Login Credentials:

Role	Phone Number
Customer	+919026998167
Agent	+919026998167
Admin	+919026998167

5. Customer Module

5.1 Home Page

The home page is the primary landing page of EagleEye. It provides:

- **Hero Section** — Banner with "Connect Your Business To A World Of Possibilities" headline
- **Quick Actions** — "Track Shipment" and "Ship Now" buttons for instant access
- **Network Statistics** — 17,500+ PIN Codes, 35+ Logistics Hubs, 96% Coverage, 50+ Cities
- **Advantages Section** — Supply Chain Solutions, Pan-India Network, Express Logistics

- **About Us** — Company overview with real-time tracking, secure handling features
- **Core Services** — E-commerce Logistics, Express Delivery, Warehousing & 3PL, Supply Chain Analytics
- **Trust & Security** — Privacy, Integrity, Long Shelf-Time, Quality Service, Real-Time Tracking
- **Testimonials** — Customer reviews carousel
- **Callback Request Form** — Submit your name, phone, email and message for a callback

5.2 Track Shipment

Track any shipment in real-time using the Air Waybill (AWB) number.

How to Track:

- Click "**Track**" in the navigation bar or go to `/track`
- Enter your **AWB number** in the search box (e.g., `EE-742-9910`)
- Click "**Track**" button
- View shipment details including:
 - Current status (In Transit, Delivered, etc.)
 - Delivery timeline with hub locations
 - Estimated delivery date

- Route map visualization

Track Page — Enter AWB Number

5.3 Ship Now — Book a Shipment

The **Ship Now** feature provides a comprehensive 5-step booking flow:

Step 1 — Pickup & Delivery Details:

- Enter sender's name, phone, address, pincode, city, state
- Enter receiver's name, phone, address, pincode, city, state
- Pincode auto-detects city name

Step 2 — Package Details:

- Enter package dimensions (length, width, height in cm)
- Enter package weight (in kg)
- Select fragile/non-fragile

Step 3 — Service Selection:

- Choose from: Express Parcel, Express Premium, E-Commerce Standard, Bulk Shipping
- View estimated delivery time and pricing for each option

Step 4 — Payment & Promo Codes:

- Select payment method (UPI, Card, Cash on Delivery)
- Apply promo codes for discounts

- View total amount with breakdown

Step 5 — Confirmation:

- Review booking summary
- Receive AWB tracking number
- Option to download booking receipt

5.4 Services

Browse all available logistics services offered by EagleEye:

- **Personal Courier** — Individual parcel delivery
- **E-Commerce Logistics** — Business-to-consumer shipping
- **Bulk Shipping** — Large volume shipments
- **Express Parcel** — Same-day and next-day delivery
- **Express Premium** — Priority handling with guaranteed timeline
- **Warehousing & 3PL** — Storage and fulfillment services

*Services Page — Service Categories*

5.5 Account — Orders

View your complete order history with filtering options:

- **Order List** — All past and current shipments

- **Status Filter** — Filter by In Transit, Delivered, Pending, Cancelled
- **Order Details** — Click any order to view full tracking timeline
- **Quick Actions** — Rebook, Download Invoice, Share Tracking

Account Orders — Order History

5.6 Account — Notifications

View all notifications related to your shipments:

- **Shipment Updates** — Status changes, delays, delivery confirmations
- **Promotional Alerts** — New offers and discount codes
- **System Notifications** — Account updates, policy changes
- **Mark as Read** — Clear individual or all notifications

*Account Notifications Center*

5.7 Account — Profile

Manage your personal account settings:

- **Personal Information** — Name, email, phone number
- **Address Book** — Save frequently used addresses
- **Preferences** — Notification settings, display preferences

*Account Profile Page*

6. Agent Module

6.1 Agent Dashboard

The agent dashboard provides a quick overview of daily tasks:

- **Daily Statistics** — Deliveries completed, pending, in transit
- **Today's Route** — Optimized delivery route overview
- **Priority Tasks** — Urgent deliveries highlighted
- **Performance Metrics** — Delivery success rate, average time

*Agent Dashboard — Daily Overview*

6.2 Agent Portal

The agent portal is the central hub for managing all delivery operations:

- **Active Assignments** — List of all current delivery assignments
- **Quick Actions** — Start delivery, update status, contact customer
- **Navigation** — Links to all agent sub-pages (Delivery, Scan, Payments)
- **Status Overview** — Visual summary of today's workload

Agent Portal — Management Hub

6.3 Delivery Management

Manage individual deliveries end-to-end:

- **Delivery List** — All assigned deliveries with status
- **Status Update** — Mark as Picked Up, In Transit, Out for Delivery, Delivered
- **Proof of Delivery (POD)** — Capture digital signature from recipient
- **Problem Report** — Flag delivery issues (wrong address, not available, etc.)
- **Customer Contact** — Quick call/message to recipient

Agent Delivery Management

6.4 Package Scan

Scan or enter AWB numbers to update package status:

How to Scan:

- Navigate to **Agent → Scan** or visit `/agent/scan`
- Enter the **AWB number** manually in the search field
- View package details (origin, destination, weight, service type)
- Update status: Received at Hub, Out for Delivery, Delivered
- Add notes or flag issues if needed

Agent Scan — AWB Entry & Status Update

6.5 Payments

Track earnings and payment history:

- **Earnings Summary** — Total earnings, pending payments, completed payments
- **Transaction History** — Detailed list of all payment transactions
- **Payment Breakdown** — Per-delivery earnings
- **Payout Schedule** — Next payout date and amount

Agent Payments — Earnings & History

7. Admin Module

7.1 Admin Dashboard (Network Command Center)

The admin dashboard provides a comprehensive overview of the entire logistics network:

- **KPI Cards** — Active Shipments, Total Hubs, Registered Agents, Hub Utilization
- **Shipping Volume Chart** — Weekly shipping volume bar chart
- **Status Breakdown** — In Transit, Delivered, Delayed, Pending counts
- **Recent Shipments** — Latest shipment orders with AWB, status, origin/destination, type
- **Quick Navigation** — Manage Agents, Manage Hubs, Broadcasts, Queries, Promotions

Admin Dashboard — KPI Cards & Shipping Volume

The Admin Dashboard also displays a table of Recent Shipments and a section for Quick Navigation. The Recent Shipments table lists AWB numbers, statuses, origins, destinations, types, and expected dates. The Quick Navigation section includes links to Manage Agents, Manage Hubs, Broadcasts, Queries, and Promotions.

AWB NUMBER	STATUS	ORIGIN → DESTINATION	TYPE	EXPECTED	Track Shipment →
EE-286-7022	PENDING	North West Delhi → Lucknow	EXPRESS_PARCEL	Apr 11	→
EE-3312-7765	IN TRANSIT	Electronic City → T. Nagar	EXPRESS	Oct 24	→
EE-6639-1102	PENDING	Sanand GIDC → Madhapur IT Park	STANDARD	Oct 27	→
EE-4471-8820	DELAYED	Dankuni → Connaught Place	STANDARD	Oct 24	→
EE-1055-3347	DELIVERED	Ambattur → Andheri East	STANDARD	Oct 22	→
EE-8829-0012	IN TRANSIT	Gurugram Industrial Area → Whitefield	STANDARD	Oct 25	→
EE-742-9910	OUT FOR DELIVERY	Mumbai Warehouse → Connaught Place	EXPRESS	Oct 26	→

Quick Navigation

- Manage Agents**: Add, edit, remove agents
- Manage Hubs**: Add, configure hubs
- Broadcasts**: Send bulk alerts
- Queries**: Support tickets
- Promotions**: Sales & discounts

Admin Dashboard — Recent Shipments & Quick Navigation

7.2 Manage Agents

Register and manage delivery agents across all hubs:

How to Register a New Agent:

- Click "+ Add Agent" button
- Fill in agent details: Name, Phone Number, Email, Assigned Hub
- Click "Register" — agent can now login via OTP

Agent Management Features:

- **Agent List** — All registered agents with status (Active, On Route)
- **Performance View** — Tasks today, delivery count
- **Hub Assignment** — Transfer agents between hubs
- **Status Toggle** — Activate/deactivate agents

Admin — Manage Agents

7.3 Manage Hubs

Oversee and manage logistics hubs across the network:

- **Hub List** — All hubs with location, capacity, active agents
- **Capacity Monitoring** — Visual utilization indicators
- **Add New Hub** — Create new hubs with address and capacity
- **Hub Performance** — Processing throughput and efficiency metrics

Admin — Manage Hubs

7.4 Promotions

Create and manage promotional offers and discount codes:

- **Active Promotions** — Currently running offers
- **Create Promotion** — Set code, discount type (% or flat), validity period, category
- **Usage Tracking** — How many times each code has been used
- **Toggle Status** — Enable/disable promotions

Admin — Promotions Management

7.5 Customer Queries

View and respond to customer support queries:

- **Query List** — All incoming customer queries with status
- **Priority Levels** — Critical, High, Medium, Low
- **Response Interface** — Reply directly from the dashboard
- **Status Management** — Open, In Progress, Resolved, Closed

Admin — Customer Queries

8. Network & Hub Management

8.1 Network Map

An interactive map showing the entire EagleEye logistics network across India:

- **Hub Markers** — All logistics hubs displayed on the map with status dots
- **Route Lines** — Connecting routes between major hubs
- **Hub Details** — Click any hub to see capacity, agents, throughput
- **Real-Time Status** — Green (Active), Yellow (High Load), Red (Issue)

Network Map — Interactive India Map

8.2 Hub Management

Detailed view of all logistics hubs:

- **Global Overview** — All hubs with capacity utilization
- **Hub Cards** — Individual hub details with agent count, processing volume
- **Capacity Bar** — Visual representation of hub utilization percentage
- **Quick Actions** — Add hub, edit details, assign agents

Hub Management — Global Overview

9. Support Pages

9.1 Customer Care

Get help and support through multiple channels:

- **Phone Support** — Direct call option with available hours
- **Email Support** — Submit queries via email
- **Live Chat** — Real-time assistance (business hours)
- **Help Center** — Searchable knowledge base

Customer Care — Support Options

9.2 FAQs

Searchable frequently asked questions with expandable accordion:

- **General Questions** — About EagleEye, services, coverage
- **Shipping & Delivery** — Delivery times, charges, restrictions
- **Tracking** — How to track, AWB format, status meanings
- **Account** — Registration, login, profile management
- **Payments** — Payment methods, refunds, COD

*FAQs — Searchable Knowledge Base*

9.3 Locate Us

Find EagleEye branches and hub locations:

- **Branch Finder** — Search by city or pincode
- **Branch Details** — Address, phone, working hours
- **Map View** — Visual location on map

Locate Us — Branch Finder

9.4 Service Guide

Comprehensive guide to all EagleEye services:

- **Service Comparison** — Side-by-side feature comparison
- **Pricing Guide** — Rate cards for different service types
- **Weight & Size Limits** — Maximum dimensions and weight per service
- **Packaging Guidelines** — How to properly package shipments

Service Guide — Detailed Documentation

10. Troubleshooting

Common Issues

Problem	Solution
Website not loading	Ensure <code>npm run dev</code> is running. Check <code>http://localhost:5173</code>
OTP not received	Check server console for OTP. Ensure Twilio credentials are configured in <code>.env</code>
Map not rendering	Allow location permissions. Check internet connection for map tiles
API requests failing	Ensure backend server is running on port 3001
Dark mode issues	Toggle light/dark using the moon icon in the header
Booking form errors	Fill all required fields marked with *
Agent pages not accessible	Login as Agent role first

Debug Tips

- Open browser **Developer Console** (F12 → Console tab) for error messages

- Check **Network tab** for failed API calls
- Verify `.env` file has correct database URL
- Run `npx prisma studio` to inspect database directly

Reset Database

```
cd server
npx prisma db push --force-reset
npx prisma db seed
```

11. Technical Appendix

Technology Stack

Layer	Technology
Frontend Framework	React 18.3.1
Type Safety	TypeScript
Routing	React Router 7.x
Styling	Tailwind CSS 4.x
Build Tool	Vite 6.x
UI Components	Radix UI primitives
Charts	Recharts
Maps	Leaflet + MapLibre GL
Animations	Framer Motion
Backend	Express.js
ORM	Prisma
Database	PostgreSQL (Neon Cloud)
Authentication	Phone OTP via Twilio

API Endpoints

Method	Endpoint	Description
POST	/api/auth/send-otp	Send OTP to phone
POST	/api/auth/verify-otp	Verify OTP and login
POST	/api/auth/register	Register new user
GET	/api/shipments	List all shipments
POST	/api/shipments	Create new shipment
GET	/api/shipments/:awb	Track shipment by AWB
PATCH	/api/shipments/:id/status	Update shipment status
GET	/api/hubs	List all hubs
GET	/api/agents	List all agents
POST	/api/agents	Register new agent
GET	/api/dashboard/stats	Dashboard statistics
POST	/api/callbacks	Submit callback request
GET	/api/callbacks	List callback requests
POST	/api/payments/initiate	Initiate payment
GET	/api/notifications	Get notifications
GET	/api/pincode/:code	Lookup pincode info

Database Models

Model	Key Fields
User	id, name, phone, email, role (customer/agent/admin)
Shipment	id, awb, senderId, receiverId, status, serviceType
Hub	id, name, city, state, capacity, latitude, longitude
Agent	id, userId, hubId, status, deliveryCount
TrackingHistory	id, shipmentId, hubId, status, timestamp
Payment	id, shipmentId, amount, method, status
Notification	id, userId, title, message, read
Broadcast	id, title, message, sentBy, createdAt
ShippingVolume	id, date, hubId, units, trend
CallbackRequest	id, name, phone, email, message, status
